Sir:

In supplemental to Amendment filed concurrently herewith, Applicant provides copies of the following art references cited in the PTO-1449:

- "Transparency", *Telecommunications: Glossary of Telecommunication Terms*, Federal Standard 1037C, 7 August 1996 (available at www.its.bldrdoc.gov/fs-1037);
- "Transparent interface", *Telecommunications: Glossary of Telecommunication Terms*, Federal Standard 1037C, 7 August 1996 (available at www.its.bldrdoc.gov/fs-1037);
- "Transparent network", *Telecommunications: Glossary of Telecommunication Terms*, Federal Standard 1037C, 7 August 1996 (available at www.its.bldrdoc.gov/fs-1037).

According to the *Telecommunications: Glossary of Telecommunication Terms*, "transparency" is defined as: (1) The property of an entity that allows another entity to pass thorough it without altering either of the entities; (2) In telecommunications, the property that allows a transmission system or channel to accept, at its input, unmodified user information, and deliver

corresponding user information at its output, unchanged in form or information content (Note: The user information may be changed internally within the transmission system, but it is restored to its original form prior to the output without the involvement of the user) (188); (3) The quality of a data communications system or device that uses a bit-oriented link protocol that does not depend on the bit sequence structure used by the data source; and (4) An image fixed on a clear base by means of a photographic printing, chemical, or other process, especially adaptable for viewing by transmitted light. [JP1]

"Transparent interface" is defined as: An interface that allows the connection and operation of a system, subsystem, or equipment with another without modification of system characteristics or operational procedures on either side of the interface. (188)

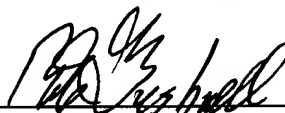

"Transparent network" is defined as: See transparency (def. #2) .
